

COVID-19 (Coronavirus) Update

Stratford University is continuing to monitor the COVID-19 (Coronavirus) situation in our local areas as well as the United States. Your health and safety are our highest priority and to aid in the prevention of employee and student exposure, and in an effort to slow the rampant spread of COVID-19, the University has made the decision to temporarily suspend ground campus activities including the delivery of all course curriculum at all campuses. All classes scheduled for Monday, March 16th are cancelled in preparation to move all ground course instruction to our online Moodle platform, in conjunction with the Zoom video conferencing software. Ground classes will move to the online modality beginning Tuesday, March 17th. Student communication will be sent to you via email from your faculty to provide guidance and support as we transition into a temporary online modality delivery for all ground classes.
